

CITY OF ERIE, PENNSYLVANIA ADA CURB RAMP PROGRAM 2020 PROGRESS REPORT

**Department of Public Works
Bureau of Engineering
January 31, 2021**

INSPECTION CERTIFICATION

This is to certify that ADA/ADAAG compliant curb ramps were constructed in the City of Erie in 2020 as defined in the 2020 Progress Report.

The curb ramps listed in these Appendices were inspected by the City of Erie, Bureau of Engineering personnel using the ADAAG Guidelines. The curb ramps constructed by the City of Erie were measured and inspected and found to be compliant at the time of inspection with noted exceptions. Exceptions will be corrected as soon as possible by the contractor at no expense to the City of Erie. Truncated domes were installed as required.

The City of Erie certifies that required ADAAG curb ramps were installed in City of Erie right-of-way on 2020 City of Erie resurfacing projects and that the City of Erie retrofit curb ramps inventory were installed as required, with noted exceptions to be corrected. This report is accurate to the best of my knowledge.

Jon Tushak, P.E.
City Engineer
